Interim Group management report

Accounting policies

In accordance with § 115 et seq. of the German Securities Trading Act (Wertpapierhandelsgesetz – WpHG), Deutsche Telekom AG's half-year financial report comprises interim consolidated financial statements and an interim Group management report as well as a responsibility statement pursuant to § 297 (2) sentence 4 and § 315 (1) sentence 5 of the German Commercial Code (Handelsgesetzbuch – HGB). The interim consolidated financial statements were prepared in accordance with the IFRS® Accounting Standards (hereinafter referred to as "IFRS Accounting Standards") issued by the International Accounting Standards Board (IASB) and applicable to interim financial reporting as adopted by the EU as of the reporting date. The interim management report for the Group was prepared in accordance with the German Securities Trading Act.

Statement of compliance

The interim consolidated financial statements for the period ended June 30, 2025 are in compliance with International Accounting Standard (IAS) 34. As permitted by IAS 34, it has been decided to publish a condensed version compared to the consolidated financial statements as of December 31, 2024. All IFRS Accounting Standards applied by Deutsche Telekom AG have been adopted by the European Commission for use within the EU.

In the opinion of the Board of Management, the reviewed half-year financial report includes all standard adjustments to be applied on an ongoing basis that are required to give a true and fair view of the results of operations and financial position of the Group. Please refer to the notes to the consolidated financial statements as of December 31, 2024 for the summary of accounting policies used in the consolidated interim financial statements.

Initial application of standards, interpretations, and amendments in the reporting period

Pronouncement		To be applied by Deutsche Telekom from	Changes	Impact on the presentation of Deutsche Telekom's results of operations and financial position
IFRS Accounting	Standards endorse	ed by the EU		
Amendments	Lack of	Jan. 1, 2025	The amendments amend IAS 21 to	No impact.
to IAS 21	Exchangeability		 specify when a currency is exchangeable into another currency and when it is not; specify how an entity determines the exchange rate to apply when a currency is not exchangeable; and require the disclosure of additional information when a currency is not exchangeable. 	

For further information on standards, interpretations, and amendments that have been issued but not yet applied, as well as disclosures on the recognition and measurement of items in the statement of financial position and discretionary decisions and estimation uncertainties, please refer to the section "Summary of accounting policies" in the notes to the consolidated financial statements in the 2024 Annual Report.

Changes in accounting policies and changes in the reporting structure

Deutsche Telekom did not make any major changes to its accounting policies or reporting structure in the reporting period.

Development of the overall economic environment and the associated impact

Current indicators suggest that the global economy developed robustly overall in the first half of 2025. However, the change in political direction in the United States has led to increased volatility in the financial markets and given rise to a palpable increase in uncertainty amongst both companies and private households. The new U.S. administration's realigned tariff policy has led to a substantial shift in the global macroeconomic conditions. The telecommunications industry is not directly affected by trade tariffs and, thus far, has proven to be relatively resilient in the face of economic fluctuations.

Interim Group management report

Deutsche Telekom is aware that, in view of the current developments, it is only possible to extrapolate past experience to the future to a limited extent. Deutsche Telekom is constantly reassessing developments in the economic environment and takes them into account in its consolidated financial statements and financial reporting, e.g., when determining the impairment of goodwill, the recognition of deferred taxes, and the measurement of provisions, financial instruments, as well as of investments accounted for using the equity method.

Changes in the underlying parameters primarily relate to the exchange rates used for currency translation and to the interest rates for determining defined benefit obligations.

The euro exchange rates of certain significant currencies changed as follows:

€							
	Annual av	erage rate	Rate at the reporting date				
	H1 2025	H1 2024	June 30, 2025	Dec. 31, 2024	June 30, 2024		
100 Czech korunas (CZK)	3.99915	3.99611	4.04057	3.96834	3.99776		
1,000 Hungarian forints (HUF)	2.47151	2.56478	2.50191	2.43070	2.53053		
100 Macedonian denars (MKD)	1.62476	1.62343	1.62474	1.62725	1.62222		
100 Polish zlotys (PLN)	23.63740	23.16090	23.57100	23.38780	23.20490		
1 U.S. dollar (USD)	0.91617	0.92495	0.85288	0.96209	0.93502		

The following key discount rates were used when calculating the present value of defined benefit obligations:

%		
	June 30, 2025	Dec. 31, 2024
Germany	3.81	3.43
United States	5.64	5.72
Switzerland	1.25	1.03

Changes in the composition of the Group and other transactions

In the first half of 2025, Deutsche Telekom conducted the following transactions with a material impact on the composition of the Group and on the segment and organizational structure of the Group.

Acquisition of Vistar Media in the United States

On December 20, 2024, T-Mobile US entered into an agreement on the acquisition of 100 % of the outstanding capital stock of Vistar Media Inc. (Vistar Media), a provider of technology solutions for digital out-of-home advertisements. The transaction was consummated on February 3, 2025. All necessary regulatory approvals had been duly granted and all other closing conditions met. In exchange, T-Mobile US transferred cash of USD 0.6 billion (EUR 0.6 billion) to the seller. Part of the payment made as of the acquisition date was used to settle pre-existing relationships with Vistar Media and is excluded from the fair value of the consideration transferred.

Vistar Media is included in the consolidated financial statements as of February 3, 2025. The acquisition meets the conditions for a business combination in accordance with IFRS 3. The purchase price allocation and the measurement of the assets and liabilities has not yet been concluded as of June 30, 2025. The preliminary fair values of acquired assets and assumed liabilities are presented in the following table:

millions of f

Assets	791
Liabilities and shareholders' equity	
Current liabilities	126
Trade and other payables	126
Non-current liabilities	62
Lease liabilities	2
Deferred tax liabilities	60
Liabilities	188
The preliminary goodwill is calculated as follows:	
millions of €	
IIIIIIIIIII OI C	Fair value at the acquisition

The preliminary goodwill comprises the expected growth in service revenues, which is to be generated through the combined business activities, Vistar Media's workforce, and intangible assets that do not qualify for separate recognition. No part of the preliminary goodwill is expected to be deductible for income tax purposes.

The customer base was measured using the multi-period excess earnings method. Under this method, the fair value of the customer base is calculated by determining the present value of earnings after tax attributable to existing customers. The customer base is amortized over an estimated average remaining useful life of 9 years. The brands were measured using the relief-from-royalty method. Under this method, the value of the brand is calculated by making an assumption about which royalty rate would be hypothetically payable if the company did not own the relevant asset. The brands and other intangible assets are amortized over an estimated average remaining useful life of 4 years.

From a Group perspective, no material transaction-related costs were incurred in connection with the acquisition. The inclusion of Vistar Media in the consolidated financial statements has no material impact on Deutsche Telekom's results of operations.

Acquisition of Blis in the United States

On February 18, 2024, T-Mobile US entered into a share purchase agreement for the acquisition of 100 % of the outstanding capital stock of Blis Holdco Limited (Blis), a provider of advertising solutions. The transaction was consummated on March 3, 2025. All necessary regulatory approvals had been duly granted and all other closing conditions met. In exchange, T-Mobile US transferred cash of USD 0.2 billion (EUR 0.2 billion) to the seller. Part of the payment made as of the acquisition date was used to settle pre-existing relationships with Blis and is excluded from the fair value of the consideration transferred.

Blis has been included in the consolidated financial statements since March 3, 2025. The acquisition meets the conditions for a business combination in accordance with IFRS 3. The purchase price allocation and the measurement of the assets and liabilities has not yet been concluded as of June 30, 2025. The preliminary fair values of the acquired assets and the assumed liabilities amount to EUR 0.2 billion and EUR 0.1 billion, respectively, resulting in a preliminary goodwill amounting to EUR 0.1 billion.

From a Group perspective, no material transaction-related costs were incurred in connection with the acquisition. The inclusion of Blis in the consolidated financial statements has no material impact on Deutsche Telekom's results of operations.

Acquisition of Lumos in the United States

On April 24, 2024, T-Mobile US entered into an agreement with the investment fund EQT on the acquisition of the fiber-to-the-home platform Lumos as part of a joint venture. The transaction was consummated on April 1, 2025. All necessary regulatory approvals had been duly granted and all other closing conditions met. Since April 1, 2025, the investment has been included in the consolidated financial statements using the equity method. In the period between the closing of the transaction and June 30, 2025, T-Mobile US invested around USD 0.9 billion (EUR 0.8 billion) to acquire a 50 % equity stake in the joint venture and 97,000 fiber customers. For the customers acquired, T-Mobile US recognized an intangible asset amortized over a weighted average useful life of 9 years. Following completion of the transaction, Lumos will continue to provide fiber services for the acquired fiber customers under a wholesale agreement between T-Mobile US and Lumos. The revenues generated from the acquired fiber customers are recognized at T-Mobile US under postpaid service revenues. The related costs paid for the provision and use of the fiber network are recognized under cost of services. The funds invested by T-Mobile US will be used by Lumos to fund future fiber builds. In addition, pursuant to the definitive agreement, T-Mobile US expects to make an additional capital contribution of approximately USD 0.5 billion (EUR 0.4 billion) between 2027 and 2028.

Furthermore, in the first half of 2025, the following developments occurred in connection with transactions already conducted in prior periods:

Acquisition of Ka'ena in the United States

On March 9, 2023, T-Mobile US entered into a Merger and Unit Purchase Agreement for the acquisition of 100 % of the outstanding equity of Ka'ena Corporation and its subsidiaries including, among others, Mint Mobile, for a maximum purchase price of USD 1.35 billion to be paid out originally 39 % in cash and 61 % in shares of T-Mobile US common stock. On March 13, 2024, T-Mobile US entered into an agreement amending the mechanics of payment, resulting in a nominal increase in the percentage of cash compared to shares of T-Mobile US common stock to be paid out as part of the total purchase price.

The transaction was consummated on May 1, 2024. All necessary regulatory approvals had been duly granted and all other closing conditions met. Ka'ena has been included in the consolidated financial statements since May 1, 2024.

The purchase price was variable dependent upon achieving specified performance indicators of Ka'ena Corporation and consisted of an upfront payment at deal close, subject to certain agreed-upon adjustments, and a variable earnout, payable on August 1, 2026. On June 30, 2025, T-Mobile US amended the Merger and Unit Purchase Agreement to set the calculation of the earnout as the difference between the maximum purchase price of USD 1.35 billion and the upfront payment. The requirement for Ka'ena to achieve specified performance indicators has been removed. As of June 30, 2025, the carrying amount of the outstanding consideration of EUR 0.2 billion (December 31, 2024: EUR 0.2 billion) was included under other long-term liabilities.

The acquisition meets the conditions for a business combination in accordance with IFRS 3. The purchase price allocation and the measurement of assets, liabilities, and the consideration transferred at the acquisition date were finalized in the reporting period as of April 30, 2025. The finalization of the purchase price allocation did not result in any changes to the fair values of the assets acquired and the liabilities assumed at the acquisition date compared with those reported in the consolidated financial statements as of December 31, 2024.

For more information on the transactions and on the fair values of the consideration transferred and the acquired assets and assumed liabilities, please refer to the section "Changes in the composition of the Group and other transactions" under "Summary of accounting policies" in the notes to the consolidated financial statements in the 2024 Annual Report.

The following transactions will change the composition of the Deutsche Telekom Group or the segment and organizational structure of the Group in the future:

Agreement on the acquisition of UScellular in the United States

On May 24, 2024, T-Mobile US entered into an agreement with United States Cellular Corporation (UScellular), Telephone and Data Systems, Inc., and USCC Wireless Holdings, LLC, under which T-Mobile US acquires, among other things, substantially all wireless activities of UScellular and specific spectrum licenses for a total purchase price of around USD 4.4 billion (EUR 3.8 billion). The purchase price is to be paid in cash and by way of the assumption of debt of up to USD 2.0 billion (EUR 1.7 billion) under an offer of exchange to certain debtors of UScellular before the closing of the transaction. To the extent that debtors do not participate in the exchange, their bonds will continue to be liabilities of UScellular, and the cash component of the purchase price will increase accordingly. The transaction was consummated on August 1, 2025. All necessary regulatory approvals had been duly granted and all other closing conditions met. The acquired activities and assets have been included in the consolidated financial statements since August 1, 2025 as part of a business combination in accordance with IFRS 3. Since the transaction was consummated so close to the date of preparing the interim consolidated financial statements, it is not yet possible to disclose information on the measurement of the consideration paid, the purchase price allocation, the fair values of the assets acquired and the liabilities assumed, or the goodwill resulting from the transaction. Following closing of the transaction, UScellular will continue to own its remaining spectrum and its cell towers, and T-Mobile US will conclude a 15-year framework license agreement for the lease of space on at least 2,100 cell towers. Furthermore, the terms of existing lease agreements for space on around 600 UScellular cell towers will be extended by another 15 years after closing of the transaction. In connection with the framework license agreement, T-Mobile US estimates that the incremental future minimum lease payments will be around USD 1.4 billion (EUR 1.2 billion) over 15 years following closing of the transaction.

Agreement on the acquisition of Metronet in the United States

On July 18, 2024, T-Mobile US entered into an agreement with KKR & Co. Inc. to establish a joint venture to acquire the fiber-to-the-home platform Metronet Holdings, LLC and certain of its affiliates (Metronet). The transaction was consummated on July 24, 2025. All necessary regulatory approvals had been duly granted and all other closing conditions met. Upon closing, T-Mobile US invested approximately USD 4.6 billion (EUR 3.9 billion) in the joint venture to acquire a 50 % equity stake and all existing residential fiber customers, as well as to fund the joint venture. Following completion of the transaction, Metronet is expected to continue to provide fiber services for the acquired fiber consumers under a wholesale agreement between T-Mobile US and Metronet. The shareholding has been included in Deutsche Telekom's consolidated financial statements using the equity method since July 24, 2025.

Agreement on the acquisition of the Iowa Entities in the United States

On July 22, 2025, T-Mobile US entered into a purchase agreement for the acquisition of the wireless operations of each of Farmers Cellular Telephone Company, Inc., Iowa RSA No. 9 Limited Partnership, and Iowa RSA No. 12 Limited Partnership ("Iowa Entities"). The transaction was consummated on August 1, 2025. The purchase price totaled around USD 0.2 billion (EUR 0.1 billion). The acquired assets and assumed liabilities have been included in the consolidated financial statements since August 1, 2025 as part of a business combination in accordance with IFRS 3. Since the transaction was consummated so close to the date of preparing the interim consolidated financial statements, it is not yet possible to disclose information on the measurement of the consideration paid, the purchase price allocation, the fair values of the assets acquired and the liabilities assumed, or the goodwill resulting from the transaction.

Approval of the sale of TKRM by the Romanian competition authority

On July 29, 2025, Hellenic Telecommunications Organization S.A. (OTE) announced that the Romanian competition authority (Romanian Competition Council, RCC) has approved the sale of Telekom Romania Mobile Communications (TKRM) in a two-step transaction that encompasses the sale of certain TKRM assets to Digi Romania S.A. (Digi), including the prepaid customer business, certain spectrum rights, and part of the tower portfolio, as well as the sale of the TKRM shares held by OTE, excluding the aforementioned assets, to Vodafone Romania S.A. (Vodafone Romania). It is expected that the transaction will be consummated – subject to the finalization of the corresponding agreements between the parties and approval by the Romanian telecommunications regulatory authority (ANCOM) – in the third quarter of 2025.

Other transactions that had no effect on the composition of the Group

Deutsche Telekom AG's shareholder remuneration

Interim Group management report

In October 2024, the Board of Management announced plans to buy back further Deutsche Telekom AG shares up to a total purchase price of EUR 2 billion in the 2025 financial year as part of a share buy-back program. The buy-back commenced on January 3, 2025 and will be carried out in several tranches through December 31, 2025. In the period from January 3, 2025 to June 30, 2025, Deutsche Telekom AG bought back around 28 million shares with a total volume of around EUR 0.9 billion under the share buy-back program.

In the period from July 1, 2025 to August 5, 2025, Deutsche Telekom AG bought back around another 7 million additional shares with a total volume of around EUR 0.2 billion under the share buy-back program.

T-Mobile US' 2025 shareholder return program

On December 13, 2024, T-Mobile US announced a further shareholder return program of up to USD 14 billion until December 31, 2025. The program comprises share buy-backs and dividends to be paid out. The amount available for share buy-backs is reduced by the amount of any dividends approved by the Board of Directors of T-Mobile US.

In the first half of 2025, T-Mobile US bought back around 20 million shares with a total volume of USD 4.9 billion (EUR 4.5 billion) under this program, and paid out a cash dividend of USD 2.0 billion (EUR 1.8 billion). EUR 1.0 billion of the cash dividend was attributable to Deutsche Telekom's stake and EUR 0.9 billion to non-controlling interests in T-Mobile US.

In the period from July 1, 2025 to July 18, 2025, T-Mobile US bought back around 2 million additional shares with a total volume of around USD 0.5 billion (EUR 0.4 billion) under the share buy-back program.

For further information on the overview of dividend payments attributable to non-controlling interests in T-Mobile US, please refer to the section "Shareholders' equity."

Sale of T-Mobile US shares by Deutsche Telekom

Since June 12, 2025, Deutsche Telekom has been selling portions of its T-Mobile US share portfolio on the market, without jeopardizing its own majority ownership position. As of June 30, 2025, Deutsche Telekom has sold around 0.8 million T-Mobile US shares with a total volume of EUR 0.2 billion.

In the period from July 1, 2025 to August 5, 2025, Deutsche Telekom sold around another 2 million T-Mobile US shares with a total volume of EUR 0.4 billion.

As of June 30, 2025, Deutsche Telekom's stake in T-Mobile US amounted to 46.1%. Taking the treasury shares held by T-Mobile US into account, Deutsche Telekom had a 52.1% ownership stake in T-Mobile US as of June 30, 2025. The shares in T-Mobile US held by SoftBank are subject to the proxy agreement between SoftBank and Deutsche Telekom. The total percentage of T-Mobile US shares for which Deutsche Telekom can exercise voting rights, based on the agreement concluded with SoftBank in connection with the acquisition of Sprint, amounted to 57.5% as of June 30, 2025.

Selected notes to the consolidated statement of financial position

Trade receivables

At EUR 14.9 billion, trade receivables decreased by EUR 1.5 billion against the 2024 year-end level. This resulted from lower receivables in the United States operating segment, mainly due to negative exchange rate effects. Receivables also declined as a result of the lower number of new contracts with equipment installment plans. By contrast, effects of changes in the composition of the Group from the acquisitions of Vistar Media and Blis in the United States operating segment increased the carrying amount of receivables. Receivables also decreased in the Germany operating segment.

For further information on the acquisitions of Vistar Media and Blis, please refer to the section "Changes in the composition of the Group and other transactions."

Contract assets

The carrying amount of contract assets increased by EUR 0.1 billion against December 31, 2024 to EUR 2.8 billion. Contract assets relate to receivables that have not yet legally come into existence, which arise from the earlier – as compared to billing – recognition of revenue, in particular from the sale of goods and merchandise. Furthermore, receivables from long-term construction contracts are recognized under contract assets.

Inventories

The carrying amount of inventories decreased by EUR 0.1 billion against the 2024 year-end level to EUR 2.3 billion. Stockpiling, including for the market launch of high-value mobile terminal equipment, primarily in the United States operating segment, increased the carrying amount. By contrast, exchange rate effects, primarily from the translation from U.S. dollars into euros, decreased the carrying amount.

Intangible assets

The carrying amount of intangible assets decreased by EUR 18.4 billion compared to December 31, 2024 to EUR 130.7 billion. Exchange rate effects of EUR 14.6 billion, primarily from the translation of U.S. dollars into euros, and depreciation, amortization and impairment losses of EUR 3.3 billion decreased the carrying amount. Reclassifications of intangible assets to non-current assets and disposal groups held for sale, which are mainly described in the section "Agreements on spectrum licenses," also reduced the carrying amount by EUR 5.1 billion. In the United States operating segment, this related to the agreed sale of spectrum licenses to Grain for EUR 3.1 billion, and the sale of spectrum licenses to N77 for EUR 1.7 billion, as described in the following section. In addition, further agreements were made in the reporting period for the exchange of spectrum licenses. Disposals reduced the carrying amount by EUR 0.1 billion, while investments increased it by EUR 3.8 billion. EUR 1.4 billion of this related to the acquisition of mobile spectrum, with EUR 1.0 billion relating to the acquisition of mobile spectrum in the United States operating segment, including EUR 0.5 billion for the acquisition of the remaining Channel 51 licenses, as described in the following section. A further EUR 0.2 billion related to the Germany operating segment and the extension of the allocation of licenses by the Bundesnetzagentur in the 800 MHz, 1,800 MHz, and 2,600 MHz spectrum bands. The Europe operating segment acquired mobile spectrum for EUR 0.2 billion, primarily in the spectrum auction ended in Poland for the 700 MHz and 800 MHz bands. Effects of changes in the composition of the Group resulting from the acquisition of Vistar Media and Blis in the United States operating segment increased the carrying amount by EUR 0.8 billion, with goodwill accounting for EUR 0.4 billion of this.

For further information on the acquisitions of Vistar Media and Blis, please refer to the section "Changes in the composition of the Group and other transactions."

Agreements on spectrum licenses

On August 8, 2022, T-Mobile US entered into agreements with Channel 51 License Co, LLC and LB License Co, LLC (Sellers) for the acquisition of spectrum licenses in the 600 MHz band in exchange for a total cash consideration of USD 3.5 billion (EUR 3.2 billion). On March 30, 2023, the contractual parties had further agreed that the transaction be divided into two separate tranches. On December 29, 2023, the Federal Communications Commission (FCC) approved the transfer of the licenses in the first tranche. The first tranche was concluded on June 24, 2024. The corresponding purchase price payment of USD 2.4 billion (EUR 2.2 billion) was made on August 5, 2024. On October 22, 2024, the FCC approved the transfer of certain licenses from the second tranche. These licenses were transferred and the associated purchase price of USD 0.5 billion (EUR 0.5 billion) paid on December 6, 2024. The transaction for the remaining licenses from the second tranche was closed on June 2, 2025 with the purchase price payment of USD 0.6 billion (EUR 0.5 billion), following regulatory approvals by the FCC.

On September 10, 2024, T-Mobile US and N77 License Co. LLC (N77) entered into an agreement on the sale of spectrum licenses, pursuant to which N77 had the option to purchase all or a portion of T-Mobile US' remaining 3.45 GHz licenses for a certain range of cash consideration. The number of licenses sold was determined based upon the amount of committed financing granted to N77. On April 30, 2025, T-Mobile US completed the sale of a portion of the licenses in exchange for a purchase price of USD 2.0 billion (EUR 1.8 billion). The sale, which followed regulatory approvals by the U.S. Federal Communications Commission (FCC), generated income of EUR 0.1 billion. The licenses transferred as part of the transaction, which had a carrying amount totaling EUR 1.7 billion, were recognized in non-current assets and disposal groups held for sale after being reclassified as a result of the agreement, and up to the point at which the transaction was consummated.

The following agreements will have an impact on the presentation of Deutsche Telekom's results of operations and financial position in the future:

On May 30, 2025, T-Mobile US entered into an agreement on the sale of 800 MHz spectrum licenses to Grain Management, LCC (Grain) in exchange for cash consideration of USD 2.9 billion (EUR 2.5 billion) and the receipt of Grain's 600 MHz spectrum licenses. It has been further agreed that T-Mobile US may additionally receive a share of future proceeds from transactions entered into by Grain that monetize the 800 MHz spectrum licenses, subject to certain terms and conditions. As of June 30, 2025, the licenses concerned were reported as held for sale with a carrying amount of EUR 3.1 billion. The transaction is subject to regulatory approvals by the FCC and certain other customary closing conditions, and is currently expected to close in the fourth quarter of 2025 or the first quarter of 2026.

On September 12, 2023, T-Mobile US agreed with U.S. cable network operator Comcast Corporation (Comcast) to acquire spectrum in the 600 MHz band in exchange for total cash consideration of between USD 1.2 billion and USD 3.3 billion (EUR 1.0 billion and EUR 2.8 billion), depending on the number of underlying licenses. The final purchase price will be determined at the time the parties make the required transfer filings with the FCC. At the same time, T-Mobile US and Comcast have agreed exclusive leasing arrangements. The leasing rights for T-Mobile US will apply for at least two years, regardless of whether Comcast decides to remove part of its licenses from the purchase agreement. The transaction is expected to be closed in the first half of 2028. On January 13, 2025, T-Mobile US and Comcast entered into an amendment to the license purchase agreement pursuant to which T-Mobile US will acquire additional spectrum. As a consequence of the amendment, the total cash consideration amounts to between USD 1.2 billion and USD 3.4 billion (EUR 1.0 billion and EUR 2.9 billion).

For further information, please refer to the section "Other financial obligations."

Property, plant and equipment

The carrying amount of property, plant and equipment decreased by EUR 3.8 billion compared with December 31, 2024 to EUR 62.8 billion. Depreciation and impairment losses totaling EUR 5.8 billion, exchange rate effects of EUR 3.3 billion, primarily from the translation of U.S. dollars into euros, and disposals of EUR 0.1 billion decreased the carrying amount. Additions, primarily for the upgrade and build-out of the network (broadband, fiber-optic, and mobile infrastructure) increased the carrying amount by EUR 5.2 billion. Reclassifications of right-of-use assets upon expiry of the contractual lease term to property, plant and equipment, primarily for network technology in the United States operating segment, increased the carrying amount by EUR 0.3 billion.

Right-of-use assets

The carrying amount of the right-of-use assets decreased by EUR 4.1 billion compared to December 31, 2024 to EUR 28.1 billion. Exchange rate effects, primarily from the translation of U.S. dollars into euros, decreased the carrying amount by EUR 3.0 billion. Depreciation, amortization and impairment losses also reduced the carrying amount by another EUR 2.7 billion. The previously mentioned reclassifications to property, plant and equipment also reduced the carrying amount by EUR 0.3 billion. The carrying amount was increased by additions of EUR 1.9 billion.

Capitalized contract costs

As of June 30, 2025, the carrying amount of capitalized contract costs decreased by EUR 0.1 billion against the level of December 31, 2024 to EUR 3.6 billion. The capitalized contract costs primarily relate to the United States and Germany operating segments.

Investments accounted for using the equity method

The carrying amount of investments accounted for using the equity method increased by EUR 1.7 billion compared to December 31, 2024, to EUR 9.0 billion. This was mainly attributable to the acquisition of a 50 % equity stake in the fiber-to-the-home platform Lumos in the United States operating segment for a purchase price of EUR 0.8 billion. Furthermore, reversals of impairment losses were recognized in the reporting period of EUR 0.5 billion and EUR 0.2 billion, respectively, on the carrying amounts of the investments in the GD tower companies and in GlasfaserPlus. These reversals of impairment losses were due to declines in industry-specific financing costs and the resulting lower discount rates, while retaining the existing business plans.

For further information on the acquisition of Lumos, please refer to the section "Changes in the composition of the Group and other transactions."

Other financial assets

Interim Group management report

millions of €		
	June 30, 2025	Dec. 31, 2024
	Total	Total
Originated loans and receivables	5,590	5,170
Of which: collateral paid	1,735	1,533
Of which: other receivables – publicly funded projects	1,711	1,550
Debt instruments – measured at fair value through profit or loss	248	265
Derivative financial assets	1,373	1,585
Of which: derivatives with a hedging relationship	886	674
Of which: derivatives without a hedging relationship	488	911
Equity instruments – measured at fair value through profit or loss	4	3
Equity instruments – measured at fair value through other comprehensive income	536	549
Lease assets	165	171
	7,916	7,743

The carrying amount of current and non-current other financial assets increased by EUR 0.2 billion compared to December 31, 2024 to EUR 7.9 billion. Exchange rate effects reduced the carrying amount by EUR 0.3 billion.

The net total of originated loans and receivables increased by EUR 0.4 billion to EUR 5.6 billion. This increase in the carrying amount was mainly due to higher receivables from collateral agreements as surety for credit risks in connection with forward-payer swaps due to normal fluctuations in fair value (EUR 0.2 billion), and higher receivables from grants still to be received from publicly funded projects (EUR 0.2 billion). The carrying amount of derivatives without a hedging relationship decreased by EUR 0.4 billion, in particular in connection with the measurement of cross-currency swaps, due to a fall in the USD/EUR exchange rate. By contrast, the carrying amount of derivatives with a hedging relationship increased by EUR 0.2 billion.

For information on cash collateral deposited and on derivatives, please refer to the section "Disclosures on financial instruments."

Other assets

The carrying amount of current and non-current other assets increased by EUR 0.4 billion to EUR 4.2 billion. As of June 30, 2025, this included various advance payments, totaling EUR 3.5 billion (December 31, 2024: EUR 3.3 billion), mainly relating to advance payments for maintenance, repairs, and in connection with agreements on services for certain mobile communications and fixednetwork equipment that do not fall under the scope of IFRS 16. Receivables from other taxes increased by EUR 0.2 billion.

Non-current assets and disposal groups held for sale

The carrying amount of non-current assets and disposal groups held for sale as of June 30, 2025 was EUR 3.4 billion, up EUR 3.1 billion on the level of December 31, 2024. The increase related to the United States operating segment and resulted from the agreed sale of spectrum licenses to Grain for EUR 3.1 billion. In the first half of 2025, the agreement on the sale of spectrum licenses to N77 initially led to an increase of the carrying amount by EUR 1.7 billion. The sale of these licenses, consummated in April 2025, then reduced the carrying amount by EUR 1.7 billion.

For further information on the agreements between T-Mobile US and Grain and N77, please refer to the section "Intangible assets."

Financial liabilities and lease liabilities

Interim Group management report

The following table shows the composition and maturity structure of financial liabilities and lease liabilities as of June 30, 2025:

millions of €					
	June 30, 2025	Due within 1 year	Due >1≤5 years	Due > 5 years	Dec. 31, 2024
Bonds and other securitized liabilities	90,672	7,261	33,075	50,336	94,678
Asset-backed securities collateralized by trade receivables	1,439	368	1,072	0	1,506
abilities to banks	3,310	991	1,726	593	2,284
	95,421	8,619	35,873	50,929	98,468
Liabilities with the right of creditors to priority repayment in the event of default	884	313	571	0	1,311
Other interest-bearing liabilities	5,975	1,303	2,425	2,247	6,430
Liabilities from deferred interest	1,043	1,043	0	0	1,158
Other non-interest-bearing liabilities	1,877	1,709	100	68	2,138
Derivative financial liabilities	2,471	61	549	1,861	2,687
	12,251	4,430	3,644	4,176	13,723
Financial liabilities	107,672	13,049	39,517	55,106	112,191
Lease liabilities	35,553	5,229	16,985	13,339	40,248

The carrying amount of current and non-current financial liabilities decreased by EUR 4.5 billion compared with year-end 2024 to EUR 107.7 billion, primarily due to the factors described below. This also includes exchange rate effects that reduced the carrying amount by EUR 10.1 billion, primarily from the translation of U.S. dollars into euros.

The carrying amount of bonds and other securitized liabilities decreased by EUR 4.0 billion to EUR 90.7 billion. Exchange rate effects decreased the carrying amount of bonds and other securitized liabilities by EUR 9.0 billion. The carrying amount was also reduced by scheduled repayments of a USD bond by T-Mobile US in the amount of USD 3.0 billion (EUR 2.7 billion) and of a EUR bond in the amount of EUR 0.4 billion. The carrying amount was increased by USD bonds issued by T-Mobile US in the reporting period with a volume of USD 3.5 billion (EUR 3.2 billion), with terms ending between 2032 and 2055 and bearing interest of between 5.13 % and 5.88 %, and by EUR bonds with a volume of EUR 2.8 billion with terms ending between 2032 and 2045 and bearing interest of between 3.15 % and 3.80 %. The carrying amount was also increased by the issue of EUR bonds of EUR 1.5 billion by Deutsche Telekom AG, with terms ending in 2032 and 2045 and bearing interest of 3.00 % to 3.63 % as well as the net issue of commercial papers in the amount of EUR 0.6 billion.

The asset-backed securities collateralized by trade receivables of EUR 1.4 billion (December 31, 2024: EUR 1.5 billion) are bonds issued by T-Mobile US. Trade receivables were provided as collateral for these bonds, hence they constitute a separate class of financial instruments. Issues in the reporting period in the amount of EUR 0.5 billion when translated into euros increased the carrying amount. By contrast, repayments of EUR 0.3 billion when translated into euros had a decreasing effect on the carrying amount. Exchange rate effects also decreased the carrying amount by EUR 0.2 billion. As of the reporting date, trade receivables with a carrying amount of EUR 1.8 billion when translated into euros (December 31, 2024: EUR 1.8 billion) were pledged as collateral for these bonds.

The carrying amount of liabilities to banks increased by EUR 1.0 billion compared with December 31, 2024 to EUR 3.3 billion, mainly due to T-Mobile US utilizing a credit line backed by an export credit agency (ECA Facility) to finance network equipment-related purchases amounting to EUR 0.8 billion when translated into euros.

The liabilities with the right of creditors to priority repayment in the event of default of EUR 0.9 billion (December 31, 2024: EUR 1.3 billion) relate primarily to bonds issued by Sprint. Collateral was provided for these bonds, hence they constitute a separate class of financial instruments. The main factor reducing the carrying amount was repayments made in the reporting period in the amount of EUR 0.3 billion when translated into euros. At the reporting date, cash and cash equivalents with a carrying amount of EUR 72 million (December 31, 2024: EUR 70 million) when translated into euros were pledged as collateral for these bonds. Exchange rate effects decreased the carrying amount of liabilities with the right of creditors to priority repayment in the event of default by EUR 0.1 billion.

The carrying amount of other interest-bearing liabilities decreased by EUR 0.5 billion compared with December 31, 2024 to EUR 6.0 billion. The carrying amount decreased by EUR 0.2 billion due to scheduled repayments of loans for the acquisition of 5G licenses and broadcasting rights in the Germany operating segment. Exchange rate effects decreased the carrying amount of other interest-bearing liabilities by EUR 0.4 billion.

The carrying amount of other non-interest-bearing liabilities decreased by EUR 0.3 billion to EUR 1.9 billion, due in part to exchange rate effects.

The carrying amount of derivative financial liabilities decreased by EUR 0.2 billion compared with December 31, 2024 to EUR 2.5 billion. It was mainly reduced by measurement effects from derivatives in cash flow hedges, which decreased the carrying amount by EUR 0.3 billion.

For further information on derivative financial liabilities, please refer to the section "Disclosures on financial instruments."

The carrying amount of current and non-current lease liabilities decreased by EUR 4.7 billion compared with December 31, 2024 to EUR 35.6 billion. Exchange rate effects, in particular from the translation of U.S. dollars into euros, reduced the carrying amount by EUR 3.6 billion. In addition, lease liabilities decreased by EUR 0.8 billion in the United States operating segment, mainly due to a lower number of new contracts following the decommissioning of the former Sprint's wireless network and other synergies from the Sprint Merger. Lease liabilities in the Germany operating segment and in the Group Headquarters & Group Services segment decreased by a total of EUR 0.3 billion.

Trade and other payables

The carrying amount of trade and other payables decreased by EUR 0.6 billion to EUR 8.9 billion. This was due to lower liabilities in the United States and Europe operating segments, mainly as a result of exchange rate effects, in particular from the translation of U.S. dollars to euros. By contrast, effects of changes in the composition of the Group from the acquisitions of Vistar Media and Blis in the United States operating segment increased the carrying amount. Liabilities increased in the Germany and Systems Solutions operating segments.

For further information on the acquisitions of Vistar Media and Blis, please refer to the section "Changes in the composition of the Group and other transactions."

Provisions for pensions and other employee benefits

The carrying amount of provisions for pensions and other employee benefits decreased by EUR 1.0 billion compared with December 31, 2024 to EUR 2.2 billion. Overall, the remeasurement of defined benefit plans resulted in an actuarial gain of EUR 0.9 billion to be recognized directly in equity, mainly due to the increase in the fair values of plan assets and the increase in the discount rate compared with December 31, 2024. Benefits paid directly by the employer in the reporting period also contributed to the reduction in the carrying amount.

Current and non-current other provisions

The carrying amount of current and non-current other provisions decreased by EUR 1.0 billion compared with the end of 2024 to EUR 6.9 billion. Other provisions for personnel costs decreased by EUR 0.7 billion, primarily in connection with the performance-based remuneration components for the prior year paid out to employees in the first half of 2025 and due to an interest rate-based decline in the carrying amount of the provision recognized for the Civil Service Health Insurance Fund (Postbeamtenkrankenkasse – PBeaKK). Furthermore, provisions for restoration obligations decreased by EUR 0.2 billion, and provisions for procurement and sales support by EUR 0.1 billion.

Other liabilities

The carrying amount of current and non-current other liabilities increased by EUR 0.1 billion to EUR 5.0 billion, mainly due to an increase in liabilities from other taxes of EUR 0.3 billion and an increase in liabilities in connection with publicly funded projects of EUR 0.1 billion in the Germany operating segment. By contrast, liabilities from early retirement arrangements for civil servants decreased by EUR 0.2 billion.

Current and non-current contract liabilities

The carrying amount of current and non-current contract liabilities decreased by EUR 0.1 billion compared with December 31, 2024 to EUR 3.3 billion. These substantially include deferred revenues. In the Germany operating segment, contract liabilities increased by EUR 0.1 billion. By contrast, contract liabilities in the United States operating segment decreased by EUR 0.1 billion.

Shareholders' equity

The carrying amount of shareholders' equity decreased by EUR 8.9 billion compared with December 31, 2024 to EUR 89.7 billion. Shareholders' equity was reduced in connection with dividend payments for the 2024 financial year to Deutsche Telekom AG shareholders in the amount of EUR 4.4 billion and to other shareholders of subsidiaries in the amount of EUR 1.2 billion. The latter figure includes cash dividends paid by T-Mobile US to non-controlling interests, as declared in the reporting period. Transactions with owners also decreased the carrying amount by EUR 4.6 billion, mainly in connection with the T-Mobile US 2025 share buy-back program. The carrying amount was also reduced by Deutsche Telekom AG's share buy-back program that started in January 2025 with share buy-backs of EUR 0.9 billion, with profit of EUR 8.4 billion and capital increases from share-based payments of EUR 0.4 billion having an increasing effect.

Other comprehensive income decreased the carrying amount by EUR 6.6 billion, mainly due to currency translation effects recognized directly in equity of EUR -7.6 billion and income taxes relating to components of other comprehensive income of EUR -0.2 billion. The remeasurement of defined benefit plans of EUR 0.9 billion and gains from hedging instruments of EUR 0.3 billion had an increasing

For further information on the share buy-back programs of Deutsche Telekom AG and T-Mobile US, please refer to the section "Other transactions that had no effect on the composition of the Group."

Net revenue

Net revenue breaks down into the following revenue categories:

millions of €		
	H1 2025	H1 2024
Service revenues	49,341	47,573
Germany	11,250	11,116
United States	31,461	30,065
Europe	5,198	5,040
Systems Solutions	2,021	1,920
Group Development	0	0
Group Headquarters & Group Services	486	476
Reconciliation	(1,075)	(1,044)
Non-service revenues	9,085	8,764
Germany	1,255	1,551
United States	6,936	6,226
Europe	972	991
Systems Solutions	2	54
Group Development	4	6
Group Headquarters & Group Services	613	631
Reconciliation	(696)	(696)
Net revenue	58,427	56,337

Interim Group management report

The service revenues essentially comprise predictable and/or recurring revenues from Deutsche Telekom's core activities. These relate to revenues that are generated from services (i.e., revenues from fixed and mobile network voice services, incoming and outgoing calls, as well as data services) plus roaming revenues, monthly basic charges and visitor revenues, as well as revenues from the ICT business. Service revenue also includes revenues earned in connection with premium services for customers, such as reinsurance for device insurance policies and extended warranties.

In the reporting period, revenue from insurance contracts in the scope of IFRS 17 of EUR 2.2 billion (H1 2024: EUR 2.3 billion) and insurance service expenses of EUR 1.5 billion (H1 2024: EUR 1.5 billion) were recognized in the Group.

Non-service revenues mainly comprise one-time and variable revenues, e.g., revenue from the sale or rental of fixed-network or mobile devices, from value-added services, from application and contract services, revenue with virtual network operators, one-time revenue from the build-out of technical infrastructure, and revenue from vehicle and property leasing.

Net revenue includes revenue from the use of entity assets by others in the scope of IFRS 16 in the amount of EUR 0.4 billion (H1 2024: EUR 0.5 billion). Of the revenue from the use of entity assets by others reported in net revenue, EUR 0.3 billion (H1 2024: EUR 0.4 billion) relates to service revenues and EUR 0.0 billion (H1 2024: EUR 0.1 billion) to non-service revenues.

For further information, please refer to the section "Development of business in the Group" in the interim Group management report.

Other operating income

millions of €		
	H1 2025	H1 2024
Income from the disposal of non-current assets	276	159
Income from reimbursements	60	58
Income from insurance compensation	149	42
Income from ancillary services	15	13
Miscellaneous other operating income	252	313
Of which: gains resulting from deconsolidations and from the sale of stakes accounted for using the equity method	4	0
	751	586

EUR 0.1 billion of the income from the disposal of non-current assets resulted from the sale, consummated on April 30, 2025, of 3.45 GHz spectrum licenses to N77. Income from insurance compensation in the first half of 2025 mainly related to refunds from insurance companies for expenses incurred in connection with the cyberattack on T-Mobile US in August 2021.

Other operating expenses

millions of €		
	H1 2025	H1 2024
Impairment losses on financial assets, contract assets, and lease assets	(660)	(694)
Gains (losses) from the write-off of financial assets measured at amortized cost	(5)	(9)
Other	(1,901)	(1,992)
Of which: legal and audit fees	(196)	(235)
Of which: losses from asset disposals	(67)	(172)
Of which: other taxes	(243)	(204)
Of which: cash and guarantee transaction costs	(262)	(244)
Of which: insurance expenses	(93)	(96)
Of which: miscellaneous other operating expenses	(1,040)	(1,041)
	(2,567)	(2,694)

Miscellaneous other operating expenses include expenses of EUR 0.2 billion (H12024: EUR 0.4 billion) for data storage in data centers, in cloud applications, or other IT services, and of EUR 0.2 billion (H1 2024: EUR 0.2 billion) for regulatory duties in the United States operating segment.

Depreciation, amortization and impairment losses

Interim Group management report

At EUR 11.8 billion, depreciation, amortization and impairment losses on intangible assets, property, plant and equipment, and rightof-use assets were EUR 0.3 billion lower in the first half of 2025 than in the prior-year period, due in particular to lower depreciation and amortization. In the United States operating segment, depreciation and amortization decreased due to the accelerated depreciation of certain technology assets in the prior year. By contrast, depreciation and amortization increased slightly in the Germany operating segment due to rising volumes in the fiber-optic build-out.

Impairment losses amounted to EUR 42 million in the reporting period, compared with EUR 16 million in the prior-year period. Impairment losses of EUR 40 million were recognized in the Europe operating segment in the first half of 2025 following an ad hoc impairment test at the Romania cash-generating unit. The subsidiary in Romania operates in a structurally challenging and highly competitive market. The fair value less costs of disposal was calculated at EUR 17 million, which is EUR 40 million lower than the carrying amount of the cash-generating unit. The fair value was derived on the basis of purchase offers. EUR 23 million of the impairment loss related to right-of-use assets, EUR 16 million to property, plant and equipment, and EUR 1 million to intangible assets.

Profit/loss from financial activities

Loss from financial activities decreased year-on-year from EUR 2.7 billion to EUR 2.2 billion, mainly due to the factors described below.

The share of profit of associates and joint ventures included in the consolidated financial statements accounted for using the equity method increased by EUR 0.8 billion compared with the prior-year period to EUR 0.8 billion. This was primarily attributable to reversals of impairment losses recognized in the reporting period of EUR 0.5 billion and EUR 0.2 billion, respectively, on the carrying amounts of the investments in the GD tower companies and in GlasfaserPlus. These reversals of impairment losses were due to declines in industry-specific financing costs and the resulting lower discount rates, while retaining the existing business plans. Level 3 input parameters were used to determine the pro rata recoverable amounts – as fair value less costs of disposal – of EUR 7.5 billion for the GD tower companies and of EUR 1.1 billion for GlasfaserPlus (after deduction of net debt). Discount rates of 5.79 % for the GD tower companies and 5.02 % for GlasfaserPlus were used.

Other financial income/expense declined by EUR 0.2 billion. Gains/losses from financial instruments and the interest component from the measurement of provisions and liabilities both declined by EUR 0.1 billion.

Finance costs declined by EUR 0.1 billion.

For further information, please refer to the section "Disclosures on financial instruments."

Income taxes

A tax expense of EUR 2.8 billion was recorded in the first half of 2025. The amount of tax expense essentially reflects the shares of the different countries in profit before income taxes and their respective national tax rates. However, the effective tax rate decreased marginally by the recognized reversals of impairment losses on the carrying amounts of the stakes in the GD tower companies and GlasfaserPlus that had no effect on tax.

Other disclosures

Notes to the consolidated statement of cash flows

Net cash from operating activities

At EUR 20.9 billion, net cash from operating activities was EUR 1.0 billion higher than in the prior-year period. This is the result of the strong development of the operating business. Lower cash outflows in connection with the integration of Sprint in the United States also had a positive effect. By contrast, the increase in net interest payments of EUR 0.2 billion had a reducing effect.

Net cash used in/from investing activities

millions of €		
	H1 2025	H1 2024

Net cash (used in) from investing activities	(8,824)	(8,525)

a Includes, in addition to the purchase price payment of EUR 603 million, inflows of cash and cash equivalents in the amount of EUR 41 million.

At EUR 9.2 billion, cash outflows for investments in intangible assets and property, plant and equipment were EUR 0.6 billion higher than in the prior-year period. In the reporting period, cash outflows for mobile spectrum licenses of EUR 0.8 billion were made in the United States operating segment, and of EUR 0.2 billion in the Europe operating segment. In the prior-year period, this item had included cash outflows for mobile spectrum licenses of EUR 0.2 billion in the United States operating segment. Excluding investments in mobile spectrum licenses, cash outflows for investments in intangible assets and property, plant and equipment were down EUR 0.1 billion year-on-year. Cash outflows in the Germany operating segment decreased by EUR 0.3 billion, mainly on account of the intra-year allocation of investments in the fiber build-out. Cash outflows in the United States operating segment increased by EUR 0.1 billion, in particular due to higher cash outflows for investments due to the continued build-out of the nationwide 5G network. In the Europe operating segment, too, cash outflows for investments in intangible assets and property, plant and equipment were slightly up against the level of the prior-year period.

b Includes, in addition to the purchase price payment of EUR 166 million, inflows of cash and cash equivalents in the amount of EUR 23 million.

c Includes, in addition to the cash component of the upfront payment made of EUR 383 million, inflows of cash and cash equivalents in the amount of EUR 22 million and (net) payments received in the third and fourth quarters of 2024 of EUR 4 million in connection with further portions of the purchase price.

Non-cash transactions

In the reporting period, Deutsche Telekom leased assets with a carrying amount of EUR 1.9 billion, mainly network equipment, cell sites, and land and buildings. These assets are recognized in the statement of financial position under right-of-use assets and the related liabilities under lease liabilities. Future repayments of the liabilities will be recognized in net cash used in/from financing activities. The corresponding additions of right-of-use assets were up EUR 0.1 billion against the prior-year period.

Consideration for the acquisition of broadcasting rights is paid by Deutsche Telekom in accordance with the terms of the contract on the date of its conclusion or spread over the term of the contract. Financial liabilities of EUR 0.1 billion were recognized in the reporting period for future payments for acquired broadcasting rights (H1 2024: EUR 0.2 billion). The payment of the consideration will be recognized in net cash used in/from financing activities.

Segment reporting

The following table provides an overview of Deutsche Telekom's operating segments and the Group Headquarters & Group Services segment for the first half of 2025 and the first half of 2024.

For further information, please refer to the section "Development of business in the operating segments" in the interim Group management report.

In accordance with the Company's principles of segment management, when loans with embedded derivatives are granted internally to Group entities, the derivative component is recognized separately also in the creditor company's financial statements and measured at fair value through profit or loss.

^a Figures relate to the reporting dates of June 30, 2025 and December 31, 2024, respectively.

Contingencies

This section provides additional information and explains recent changes in the contingent liabilities and assets as described in the consolidated financial statements for the 2024 financial year.

Claims relating to charges for the shared use of cable ducts. In the claims filed by Vodafone Deutschland GmbH and Vodafone West GmbH against Telekom Deutschland GmbH alleging excessive charges for the use of cable ducts, which were referred by the Federal Court of Justice back to the responsible Higher Regional Courts, the plaintiff Vodafone Deutschland has since updated its demands for relief. Vodafone Deutschland now puts its claim at around EUR 980 million plus interest for the period from January 2012 to December 2024. It is currently not possible to estimate the financial impact with sufficient certainty.

Proceedings against T-Mobile US in consequence of the cyberattack on T-Mobile US in August 2021. The derivative action brought against the members of the Board of Directors of T-Mobile US and against T-Mobile US as nominal defendant in September 2022 was further dismissed in its entirety in appeal proceedings in the first quarter of 2025.

Class action relating to shareholder return programs of T-Mobile US. On February 25, 2025, a shareholder class action and derivative action was filed in the Delaware Court of Chancery against Deutsche Telekom AG, T Mobile US, and all of T-Mobile US' directors, asserting breach of fiduciary duties relating to the 2022 share buy-back program and the 2023-2024 shareholder return program of T-Mobile US. It is currently not possible to estimate the resulting claim and financial risk of these proceedings with sufficient certainty.

Claims for damages against Deutsche Telekom AG, including due to insolvency of Phones4U. After the Court of Appeal's partial allowance of the appeal by Phones4U in March 2024, the appeal hearing took place from May 19 to 23, 2025. On July 11, 2025, the Court of Appeal dismissed Phones4U's appeal in full. This decision is not yet final and legally binding. It is currently not possible to estimate the financial impact with sufficient certainty.

Other financial obligations

The following table provides an overview of Deutsche Telekom's other financial obligations as of June 30, 2025:

millions of €	
	June 30, 2025
Purchase commitments regarding property, plant and equipment	5,098
Purchase commitments regarding intangible assets	5,210
Firm purchase commitments for inventories	6,910
Other purchase commitments and similar obligations	30,178
Payment obligations to the Civil Service Pension Fund	542
Obligations arising in connection with corporate transactions	8,336
Miscellaneous other obligations	41
	56,314

Purchase commitments regarding intangible assets include, among others, obligations arising from the agreement between T-Mobile US and Comcast for the acquisition of 600 MHz spectrum licenses. In this regard, the maximum purchase price of USD 3.4 billion (EUR 2.9 billion) was included in the disclosure. Other purchase commitments and similar obligations mainly comprise obligations for the procurement of services, such as maintenance and servicing, IT services, marketing activities, and outsourcing. The obligations arising in connection with business combinations mainly relate to obligations from the acquisition of Lumos of USD 0.5 billion (EUR 0.4 billion), and the agreed acquisitions of UScellular of USD 4.4 billion (EUR 3.8 billion), of Metronet of USD 4.6 billion (EUR 3.9 billion), and of the Iowa Entities of USD 0.2 billion (EUR 0.1 billion) in the United States operating segment.

For further information on the agreement concluded with Comcast, please refer to the section "Intangible assets."

For further information on the agreements on the acquisition of Lumos, UScellular, Metronet, and the Iowa Entities in the United States, please refer to the section "Changes in the composition of the Group and other transactions."

Interim Group management report

Of the equity instruments measured at fair value through other comprehensive income and recognized under other financial assets, the instruments presented in the different levels constitute separate classes of financial instruments. In each case, the fair values of the total volume of equity instruments recognized as Level 1 are the price quotations at the reporting date.

The listed bonds and other securitized liabilities are assigned to Level 1 or Level 2 depending on the market liquidity of the relevant instrument. Consequently, issues denominated in euros or U.S. dollars with relatively large nominal amounts are to be classified as Level 1, the rest as Level 2. The fair values of the instruments assigned to Level 1 equal the nominal amounts multiplied by the price quotations at the reporting date. The fair values of the instruments assigned to Level 2 are calculated as the present values of the payments associated with the debts, based on the applicable yield curve and Deutsche Telekom's credit spread curve for specific currencies. T-Mobile US' EUR bonds and its U.S. dollar asset-backed securities collateralized by trade receivables are assigned to Level 2. Their fair values are determined on the basis of quoted prices for identical assets on inactive markets and observable changes in the market interest rates.

The fair values of liabilities to banks and other interest-bearing liabilities are calculated as the present values of the payments associated with the debts, based on the applicable yield curve and Deutsche Telekom's credit spread curve for specific currencies. The fair values of trade receivables and of originated loans and other receivables are calculated as the present values of the payments associated with the receivables, based on the applicable yield curve and the credit risk of the debtors.

Since there are no market prices available for the derivative financial instruments in the portfolio assigned to Level 2 due to the fact that they are not listed on the market, the fair values are calculated using standard financial valuation models, based entirely on observable inputs. The fair value of derivatives is the price that Deutsche Telekom would receive or have to pay if the financial instrument were transferred at the reporting date. Interest rates of contractual partners relevant as of the reporting date are used in this respect. The middle rates applicable as of the reporting date are used as exchange rates. In the case of interest-bearing derivatives, a distinction is made between the clean price and the dirty price. In contrast to the clean price, the dirty price also includes the interest accrued. The fair values carried correspond to the full fair value or the dirty price.

The equity instruments measured at fair value through other comprehensive income comprise a large number of investments in strategic, unlisted individual positions. Deutsche Telekom considers the chosen measurement through other comprehensive income without recycling to profit or loss to be appropriate because there are no plans to use the investments for short-term profit-taking. At the date of disposal of an investment, the total cumulative gain or loss is reclassified to retained earnings. Acquisitions and disposals are based on business policy investment decisions.

Development of the carrying amounts of the financial assets and financial liabilities assigned to Level 3 a

a Including financial assets and liabilities reported under assets and liabilities directly associated with non-current assets and disposal groups held for sale.

b The disposals under energy forward agreements include billing amounts paid.

The equity instruments assigned to Level 3 that are measured at fair value through other comprehensive income and carried under other financial assets are equity investments with a carrying amount of EUR 527 million measured using the best information available at the reporting date. As a rule, Deutsche Telekom considers transactions involving shares in those companies to have the greatest relevance. Transactions involving shares in comparable companies are also considered. The proximity of the relevant transaction to the reporting date, and the question of whether it was conducted at arm's length, are relevant for deciding which information is used for the measurement. Furthermore, the degree of similarity between the object being measured and comparable companies must be taken into consideration. For the development of the carrying amounts in the reporting period, please refer to the table above. As of the reporting date, no investments were reported under non-current assets and disposal groups held for sale. In the case of investments with a carrying amount of EUR 320 million, transactions involving shares in these companies took place at arm's length sufficiently close to the reporting date, which is why the share prices agreed in the transactions were to be used without adjustment for the measurement as of the current reporting date. In the case of investments with a carrying amount of EUR 35 million, an analysis of operational indicators (especially revenue, EBIT, and liquidity) revealed that the carrying amounts were equivalent to current fair values. Due to better comparability, previous arm's length transactions involving shares in these companies are preferable to more recent transactions involving shares in similar companies. In the case of investments with a carrying amount of EUR 121 million, for which the last arm's length transactions relating to shares in these companies took place further in the past, a measurement performed more recently relating to shares in similar companies provides the most reliable representation of the fair values. Here, multiples to the reference variable of expected revenue (ranging between 2.7 and 38.2) were applied and a range of equally distributed percentiles in intervals of 16.7 % around the median were taken as a basis. For each investment, the appropriate percentile was used depending on the specific circumstances. If other values had been used for the multiples and for the expected revenue amounts, the calculated fair values would have been different. However, these hypothetical deviations (sensitivities) were immaterial as of the current reporting date. In addition, non-material individual items with a carrying amount of EUR 51 million when translated into euros are included with differences in value of minor relevance.

The derivatives without a hedging relationship assigned to Level 3 and carried under derivative financial assets relate to **options embedded in bonds issued by T-Mobile US** with a carrying amount of EUR 176 million when translated into euros. The options, which can be exercised by T-Mobile US at any time, allow early redemption of the bonds at fixed exercise prices. Observable market prices are available regularly and also at the reporting date for the bonds as entire instruments, but not for the options embedded therein. The termination rights are measured using an option pricing model. Historical interest rate volatilities of bonds issued by T-Mobile US and comparable issuers are used for the measurement because these provide a more reliable estimate at the reporting date than current market interest rate volatilities. The spread curve, which is also unobservable, was derived on the basis of current market prices of bonds issued by T-Mobile US and debt instruments of comparable issuers. Risk-free interest rates and spreads were simulated separately from each other. At the current reporting date, the following interest rate volatility and spreads were used for the various rating levels of the USD bonds:

Interest rate volatilities and spreads used for USD bonds by rating levels

%		
	Interest volatility (absolute figure)	Spread
BBB+	0.0-0.1	0.9-1.4
BBB-	0.0-0.2	1.3–1.9
BB+	0.1–0.2	1.6-2.3

If other values had been used for the interest rate volatility and for the spread curve, the calculated fair values would have been different. However, these hypothetical deviations (sensitivities) were immaterial as of the current reporting date. In the reporting period, a net expense of EUR 14 million when translated into euros was recognized under the Level 3 measurement in other financial income/expense for unrealized losses for the options in the portfolio at the reporting date. Please refer to the table above for the development of the carrying amounts in the reporting period. Due to their distinctiveness, these instruments constitute a separate class of financial instruments.

With a carrying amount of EUR 167 million when translated into euros, the derivatives without a hedging relationship assigned to Level 3 and carried under derivative financial assets relate to **energy forward agreements** embedded in contracts entered into by T-Mobile US. The same applies to derivative financial liabilities with a carrying amount of EUR 20 million when translated into euros. These agreements consist of two components: the energy forward agreement and the acquisition of renewable energy credits by T-Mobile US. Commercial operations are already underway. The agreement concerning a project for which commercial operations have not yet begun was terminated in the reporting period. Under the energy forward agreements, which are accounted for separately as derivatives, T-Mobile US receives variable amounts based on the actual energy output and the then current energy prices, and pays fixed amounts per unit of energy generated from the start of commercial operations throughout the term of the contract. The energy forward agreements are measured using valuation models because no observable market prices are available. The value of the derivatives is influenced primarily by the future energy output and the future energy prices on the relevant markets. The main contract

parameters and assumptions made are set out in the table below. In the view of T-Mobile US, the contracts were entered into at current market conditions, and the most appropriate parameters for the unobservable inputs were used for measurement purposes. The transaction price at inception was zero in each case. Since the unobservable inputs have a significant influence on the measurement of the derivatives, the respective amount resulting from initial measurement (day 1 gain) for some of the agreements was not recognized in profit or loss on initial recognition. Instead, these day 1 gains are amortized in profit or loss on a straight-line basis over the period of commercial energy production. This amortization adjusts the effects from measuring the derivatives in each accounting period using the respective valuation models and updated parameters. All amounts from the measurement of the derivatives are presented in net terms per contract in the statement of financial position (derivative financial assets/liabilities) and in the income statement (other operating income/expenses). The remaining agreements were acquired by T-Mobile US in a business combination and, for these agreements too, unobservable inputs have a material influence on the measurement of the derivatives. However, under the requirements for business combinations, the respective amounts resulting from the measurement are recognized as derivative financial assets, as a result of which there are no amounts yet to be amortized for these agreements. On the following reporting dates, the effects from the periodic measurement of the derivatives will be recorded in full in the income statement (other operating expenses or other operating income). At the reporting date, the calculated fair value from Deutsche Telekom's perspective for one of the energy forward agreements described above is negative and amounts to EUR -4 million when translated into euros. The fair values of all other energy forward agreements are positive and amount to EUR 218 million when translated into euros. If other values had been used for the future energy prices and for the future energy output, the calculated fair values would have been different. However, these hypothetical deviations (sensitivities) were immaterial as of the current reporting date. In the reporting period, a net expense of EUR 18 million when translated into euros was recognized under the Level 3 measurement in other operating income/expense for unrealized losses for the derivatives for all the above energy forward agreements. Please refer to the corresponding table for the development of the carrying amounts in the reporting period. The development of the day 1 gain yet to be amortized in the income statement in the reporting period is shown in the following table. The straight-line amortization of the day 1 gains through profit or loss over the period of commercial energy production amounts to a total of EUR 9 million per year when translated into euros.

Main contract parameters of energy forward agreements

	United States
Term of the contract from the start of commercial operation in years	12 to 15
End of the term of contracts	2029 to 2035
Expected energy output in GWh per year	3,382
Expected energy prices per MWh for the unobservable portion of the term in €	18 to 127
Length of time in years, for which energy prices are regularly observable	up to 10

Development of the not yet amortized amounts

m	н	1:	_	n	_	~	£	₽

	Energy forward agreements in the United States ^a
Measurement amounts on initial recognition	245
Measurement amounts on initial recognition (additions during the reporting period)	0
Measurement amounts amortized in profit or loss in prior periods	(59)
Measurement amounts amortized in profit or loss in the current reporting period	(5)
Currency translation adjustments	2
Disposals in prior periods	(85)
Disposals in the current reporting period	(31)
Measurement amounts not amortized as of June 30, 2025	67

^a For more details, please refer to the explanations above.

For the trade receivables measured at fair value through other comprehensive income assigned to Level 3 and for the **originated loans** and other receivables measured at fair value through profit or loss, the main factor in determining fair value is the credit risk of the relevant counterparties. If other values had been used for the default rates as of the reporting date with no change in the reference variables, the calculated fair values would have been different. However, these hypothetical deviations (sensitivities) were immaterial as of the current reporting date. The financial assets assigned to Level 3 include trade receivables measured at fair value through other comprehensive income, for which the credit risk of customers constitutes an unobservable input for the measurement, with a carrying amount of EUR 7,888 million (December 31, 2024: EUR 9,189 million) when translated into euros. As a rule, a credit scoring model is used for receivables paid in installments. The cash flows are discounted on the basis of the weighted average of the original effective interest rates of the financial assets in the relevant portfolio. A weighted average credit-risk spread of 7.18 % (December 31, 2024: 7.18 %) was applied to the respective receivables portfolios at the reporting date. The credit-risk spreads applied are derived from the expected future credit loss of the relevant portfolio and are updated on an ongoing basis. Changes in the fair value of these trade receivables are also caused by changes in observable market interest rates.

No notable fluctuations in value are expected from the other financial assets and financial liabilities assigned to Level 3.

Disclosures on credit risk

In line with the contractual provisions, in the event of insolvency, all derivatives with a positive or negative fair value that exist with the respective counterparty are offset against each other, leaving a net receivable or liability. The net amounts are normally recalculated every bank working day and offset against each other. When the netting of the positive and negative fair values of all derivatives was positive from Deutsche Telekom's perspective, Deutsche Telekom received unrestricted cash collateral from counterparties pursuant to collateral agreements in the amount of EUR 325 million (December 31, 2024: EUR 109 million). The credit risk was thus reduced by EUR 325 million (December 31, 2024: EUR 104 million) because, on the reporting date, the cash collateral received was offset by corresponding net derivative positions in the same amount. On the basis of these contracts, derivatives with a positive fair value and a total carrying amount of EUR 1,002 million as of the reporting date (December 31, 2024: EUR 1,176 million) had a residual credit risk of EUR 12 million as of June 30, 2025 (December 31, 2024: EUR 0 million).

When the netting of the positive and negative fair values of all derivatives was negative from Deutsche Telekom's perspective, Deutsche Telekom provided cash collateral in the amount of EUR 1,622 million as of the reporting date (December 31, 2024: EUR 1,457 million) to counterparties pursuant to collateral agreements. The cash collateral paid is offset by corresponding net derivative positions of EUR 1,603 million at the reporting date (December 31, 2024: EUR 1,400 million), which is why it was not exposed to any credit risks in this amount.

On account of its close connection to the corresponding derivatives, the collateral received (paid) constitutes a separate class of financial liabilities (assets). There were no other significant agreements reducing the maximum exposure to the credit risk of financial assets. The maximum exposure to credit risk of the other financial assets thus corresponds to their carrying amounts.

In accordance with the terms of the bonds issued by T-Mobile US, T-Mobile US has the right to terminate the majority of bonds prematurely under specific conditions. The rights of early termination constitute embedded derivatives and are presented separately as derivative financial assets in the consolidated statement of financial position. Since they are not exposed to any credit risk, they constitute a separate class of financial instruments. Please refer to the explanations above for more information on the energy forward agreements for which no material collateral is provided. There is also no credit risk on embedded derivatives held.

In connection mainly with the acquisition of spectrum, subsidiaries of Deutsche Telekom have deposited additional cash collateral of EUR 35 million when translated into euros as of the reporting date (December 31, 2024: EUR 0 million). For the procurement of energy, subsidiaries of Deutsche Telekom have deposited additional cash collateral of EUR 5 million when translated into euros as of the reporting date (December 31, 2024: EUR 5 million). At the reporting date, cash and cash equivalents of EUR 72 million (December 31, 2024: EUR 70 million) when translated into euros were pledged as cash collateral for liabilities issued by Sprint with the right of creditors to priority repayment in the event of default. This cash collateral is not exposed to any significant credit risk.

Related-party disclosures

Interim Group management report

The following significant changes to the related-party disclosures reported in the consolidated financial statements as of December 31, 2024 were in effect as of June 30, 2025:

Acquisition of Lumos in the United States. T-Mobile US' investment in the fiber-to-the-home platform Lumos under a joint venture has been included in the consolidated financial statements using the equity method since April 1, 2025. Business relationships exist between T-Mobile US and Lumos involving revenues, expenses, receivables, and liabilities.

For further information on the acquisition of Lumos, please refer to the section "Changes in the composition of the Group and other transactions."

Executive bodies

Board of Management

On January 27, 2025, the Supervisory Board resolved to cancel the current appointment of Tim Höttges. He was reappointed to the Board of Management prematurely for the period from February 1, 2025 until midnight on December 31, 2028. He was again assigned the department of the Chair of the Board of Management.

The Supervisory Board additionally resolved on January 27, 2025 to terminate Srini Gopalan's position as the Board member responsible for the Germany Board department and to approve his termination agreement effective midnight on February 28, 2025. Srini Gopalan assumed the function of Chief Operating Officer at T-Mobile US effective March 1, 2025.

In the same meeting, the Supervisory Board approved the appointment of Rodrigo Diehl to the Board of Management for the period from March 1, 2025 to midnight on February 29, 2028. He was assigned the Germany Board department.

Claudia Nemat, Board member responsible for the Technology and Innovation Board department, notified the Supervisory Board of Deutsche Telekom AG that she does not intend to extend her service contract beyond its current expiration date and will leave the Group prematurely as of midnight on September 30, 2025.

On May 22, 2025, the Supervisory Board approved the appointment of Dr. Abdu Mudesir to the Board of Management for the period from October 1, 2025 to midnight on September 30, 2028. He was assigned the Technology and Innovation Board department.

For more information, please refer to the section "Other transactions that had no effect on the composition of the Group."

T-Mobile US' share buy-back program. In the period from July 1, 2025 to July 18, 2025, T-Mobile US bought back around 2 million additional shares with a total volume of around USD 0.5 billion (EUR 0.4 billion) under its share buy-back program.

For more information, please refer to the section "Other transactions that had no effect on the composition of the Group."

Sale of T-Mobile US shares by Deutsche Telekom. In the period from July 1, 2025 to August 5, 2025, Deutsche Telekom sold around 2 million T-Mobile US shares with a total volume of EUR 0.4 billion.

For more information, please refer to the section "Other transactions that had no effect on the composition of the Group."

Acquisition of Metronet in the United States. On July 18, 2024, T-Mobile US entered into an agreement with KKR & Co. Inc. to establish a joint venture to acquire the fiber-to-the-home platform Metronet. The transaction was consummated on July 24, 2025.

For more information, please refer to the section "Changes in the composition of the Group and other transactions."

Interim Group management report

Acquisition of UScellular in the United States. On May 24, 2024, T-Mobile US entered into an agreement on the acquisition of UScellular, LLC. The transaction was consummated on August 1, 2025.

For more information, please refer to the section "Changes in the composition of the Group and other transactions."

Acquisition of the Iowa Entities in the United States. On July 22, 2025, T-Mobile US entered into a purchase agreement for the acquisition of the wireless operations of each of Farmers Cellular Telephone Company, Inc., Iowa RSA No. 9 Limited Partnership, and lowa RSA No. 12 Limited Partnership ("lowa Entities"). The transaction was consummated on August 1, 2025.

For more information, please refer to the section "Changes in the composition of the Group and other transactions."

Approval of the sale of TKRM by the Romanian competition authority. On July 29, 2025, Hellenic Telecommunications Organization S.A. (OTE) announced that the Romanian competition authority (Romanian Competition Council, RCC) has approved the sale of Telekom Romania Mobile Communications (TKRM).

For more information, please refer to the section "Changes in the composition of the Group and other transactions."

Change in taxation laws in the United States. On July 4, 2025, U.S. President Donald Trump signed the One Big Beautiful Bill Act (the "OBBBA") into law. This Act includes numerous changes to existing tax law, including provisions regarding depreciation and amortization of certain assets, limitations on interest deductions, and the deductibility of research and development expenditure. These provisions are generally effective beginning in 2025, and are expected to result in a partial deferral of income tax payments to future periods. According to our current assessments, the changes in taxation laws are not expected to have a material impact on net profit.

Change in taxation laws in Germany. On July 11, 2025, the Bundesrat adopted the draft law for an immediate tax investment program to strengthen Germany as a business location. The law has now entered into force and provides, among other things, for the introduction of a declining-balance depreciation allowance for certain assets as well as a gradual reduction of the corporate income tax rate from 2028. In connection with the improved depreciation framework, a partial deferral of income tax payments to future periods is to be expected. According to current analysis, the reduction in the tax rate means that the remeasurement of deferred tax assets and deferred tax liabilities is expected to have a positive impact on net profit in the second half of 2025.

Responsibility statement

To the best of our knowledge, and in accordance with the applicable reporting principles for interim financial reporting, the interim consolidated financial statements give a true and fair view of the assets, liabilities, financial position and profit or loss of the Group, and the interim Group management report includes a fair review of the development and performance of the business and the position of the Group, together with a description of the material opportunities and risks associated with the expected development of the Group for the remaining months of the financial year.

Review report

To Deutsche Telekom AG, Bonn

We have reviewed the condensed consolidated interim financial statements – comprising the statement of financial position, the income statement, the statement of comprehensive income, the statement of changes in equity, the statement of cash flows, and selected explanatory notes – and the interim Group management report of Deutsche Telekom AG, Bonn, for the period from January 1 to June 30, 2025 which are part of the half-year financial report pursuant to § (Article) 115 of the German Securities Trading Act (Wertpapierhandelsgesetz – WpHG). The preparation of the condensed consolidated interim financial statements in accordance with the IFRS® Accounting Standards (hereinafter referred to as "IFRS Accounting Standards") issued by the International Accounting Standards Board (IASB) and applicable to interim financial reporting as adopted by the EU and of the interim Group management report in accordance with the provisions of the German Securities Trading Act applicable to interim Group management reports is the responsibility of the parent company's board of management. Our responsibility is to issue a review report on the condensed consolidated interim financial statements and on the interim Group management report based on our review.

We conducted our review of the condensed consolidated interim financial statements and the interim Group management report in accordance with German generally accepted standards for the review of financial statements promulgated by the Institut der Wirtschaftsprüfer (Institute of Public Auditors in Germany) (IDW) and additionally observed International Standard on Review Engagements 2410 "Review of Interim Financial Information Performed by the Independent Auditor of the Entity." Those standards require that we plan and perform the review so that we can preclude through critical evaluation, with moderate assurance, that the condensed consolidated interim financial statements have not been prepared, in all material respects, in accordance with the IFRS Accounting Standards applicable to interim financial reporting as adopted by the EU or that the interim Group management report has not been prepared, in all material respects, in accordance with the provisions of the German Securities Trading Act applicable to interim Group management reports. A review is limited primarily to inquiries of company personnel and analytical procedures and therefore does not provide the assurance attainable in a financial statement audit. Since, in accordance with our engagement, we have not performed a financial statement audit, we cannot express an audit opinion.

Based on our review, no matters have come to our attention that cause us to presume that the condensed interim consolidated financial statements of Deutsche Telekom AG have not been prepared, in all material respects, in accordance with the IFRS Accounting Standards applicable to interim financial reporting as adopted by the EU nor that the interim Group management report has not been prepared, in all material respects, in accordance with the provisions of the German Securities Trading Act applicable to interim group management reports.
